

EXCEPTIONAL TRANSCRIPTION FOR EXCEPTIONAL PROVIDERS

INSCRIBE DOCUMENTATION SERVICES

- Today's physicians are spending more time on documentation and less time on patient care. In fact, a recent study published by the American Journal of Emergency Medicine* found that less than 50 percent of a physician's time was spent on providing direct patient care. Reduced physician productivity leads to fewer patients seen and less revenue.

IEP InScribe Documentation Services helps physicians get back to the business of patient care. Our scribes are your clinical support partner, recording the detailed documentation from a patient's visit and overseeing it into the patient's corresponding Electronic Medical Record (EMR).

From the patient visit to disposition and everything in between, IEP InScribe Documentation Services has you covered.
