

EMERGENCY MEDICINE

Clinical Expertise

At IEP, we have a passion for Emergency Medicine. It's in our DNA, and it shows every day in the compassionate patient-centered care we provide, the collaborative practice environment we create, and the excellent relationships we build with our hospital partners.

Operational Excellence

We believe that engaged practice management is the direct result of outstanding leadership, operational excellence and outstanding clinical providers. We have led operational and process improvements at all of our hospital sites, created programs to incentivize change, and measured success through metric-driven results.

Success Stories

Data is essential to validate and promote the clinical transformation needed to produce improvement. We have successfully validated data and promoted clinical transformation that produced the following improvements at our hospital sites:

- Reduced Readmission Rates
- Decreased LWBS
- Improved door to provider times
- Optimized Throughput
- Increased Patient Satisfaction
- Increased Provider Satisfaction
- Sepsis Initiative
- Stroke Elite Status
